Letter of recommendation

Letter of Recommendation

I am pleased to recommend Willem Grasso, a student of Clinical Technology, who completed an internship in the Department of Surgery at Amphia Hospital in June 2025.

During his internship, Willem demonstrated an exceptional interest in the technological aspects of modern surgical practice. He was particularly engaged in topics such as robotic surgery, the potential of radiological interventions, and the technical innovations surrounding cardiovascular procedures. Willem consistently asked insightful questions and showed a strong ability to connect theoretical knowledge with clinical practice.

Willem is a highly motivated and curious student with a strong analytical mindset, well suited to the field of clinical technology. His enthusiasm and professional attitude suggest significant potential for a future career at the intersection of medicine and technology. Additionally, his exceptionally high social skills make him extremely well-suited to work in a team.

I recommend Willem Grasso without reservation.

Sincerely,
J.H. Wijsman, MD, PhD
